Released on:	January 19, 2021, 8:30 pm

for this product! (Please note that the color shown in the video may no longer be available.) The Silencer® Reflex features interchangeable lens systems that are designed to quickly and efficiently utilize all of Native’s lens options, so you can adjust to all light conditions. Rhyno-Tuff® Air Frames, made with an extremely lightweight high performance thermoplastic material, is durable enough to withstand high velocity collisions and temperature extremes. Exhaust vents incorporated into the design framework enhance airflow which virtually eliminates fog and condensation. This unique design feature is the only system available that allows maximum ventilation while blocking extraneous incoming light. Cushinol® Temple Boots create a non-slip grip that keeps sunglasses in place during athletic activity. Cam-Action hinges allows the temples to quickly lock into position, getting you ready for action. Mastoid Temple Grip® ensures the temple ends hug the mastoid bone (behind your ears) which allows for a secure and comfortable fit. Anti-Ocular Intrusion System is designed to prevent your lenses from dangerously shooting toward your eyes in the event of a high velocity impact. Polarized Silver Reflex® lenses are suitable for extremely bright sunlight. 10% visual light transmittance. SportFlex® and Optic Gear included. SportFlex® lenses are suitable for a wide range of lowlight conditions, e.g., cloudy, overcast, dusk, and dawn. Optic Gear Kit includes a semi-hard case, a soft pouch, and a sunglass cord. Made in Italy.
