for this product! (Please note that the color shown in the video may no longer be available.) Traverse tricky terrain with speed and ease when you take them on with the Snow Run by Atlas®. LightSpeed Bindings offer technical fit in a extremely lightweight design, without sacrificing comfort or ease-of-use. Spring-Loaded™; Suspension keeps the snowshoe close underfoot for easy maneuvering and suspends your foot so it can move freely with its intended articulation. Suspension absorbs impact and lets your foot flex naturally side-to-side for a comfortable, stable position on traverses and uneven terrain. Enhanced traction control as the flex provides deeper crampon penetration into the slope, especially on steep or off-angle terrain. Heel cleat adds traction and stability for climbing, descending and traversing varied terrain. Flexible Nytex™; decking is forgiving and quiet when hiking in the cold, providing durability without the weight. Twin-Trac™; toe crampon uses a sturdy row of front points and two side teeth to keep your foot from twisting. Specifications:

Size: 22 in.

Surface area: 134 sq in.

Weight: 2.16 lbs.

Load: One size fits all. Imported.
